Recommendation: **AVOID**

TIARE

Competition -

Market Competition: The IT sector is highly competitive where the key factors of competition primarily comprise quality and price of the service and timely delivery.

Geographic Competition: The company faces competition from regional, national, and international players in both organized and unorganized sector.

Barriers to entry: Low barriers to entry.

Bargaining Power of Suppliers: The bargaining power is high with the suppliers.

Bargaining Power of Buyers: The bargaining power is high with the customers.

Business Strategies -

Global Business Strategy: The company intends to increase their global presence by tapping new industries and geographical areas like Middle East and East Asia.

Positioning and Marketing Strategy: The Company intends to advance their services including PLAYMITY, BULWARK, INSIGHT, and others like EPPM, DROANA, and PERFORM. Their investment will fuel research and development, ensuring these products lead the market in innovation and meet the latest demands.

Customer Account Retention and Growth Strategy: The Company plans to enhance their physical and digital infrastructure. This encompasses modernizing the workspaces, upgrading technology platforms, and maintaining high service standards.

Risk Factors -

The company has 18 outstanding cases for taxation matters and civil matters amounting to Rs. 64.22 lakhs.

The company derived its majority of its revenue from top 10 customers which accounted to 94.33%, 92.70% and 90.76% for FY 2024, FY 2023 and FY 2022 respectively.

Indian IT Industry -

According to National Association of Software and Service Companies (Nasscom), the Indian IT industry's revenue touched US\$ 227 billion in FY22, a 15.5% YoY growth and was estimated to have touched US\$ 245 billion in FY23. In 2022, the Indian domestic IT & Business Services market was valued at US\$ 13.87 billion and recorded a 7.4% year-over-year (YoY) growth as compared to 7.2% in 2021.

Market Size -

(source:RHP)

Indian software product industry is expected to reach US\$ 100 billion by 2025. Indian companies are focusing on investing internationally to expand their global footprint and enhance their global delivery centres. The data annotation market in India stood at US\$ 250 million in FY20, of which the US market contributed 60% to the overall value. The market is expected to reach US\$ 7 billion by 2030 due to accelerated domestic demand for AI. India's IT industry is likely to hit the US\$ 350 billion mark by 2026 and contribute 10% towards the country's gross domestic product (GDP), Infomerics Ratings said in a report.

Road Ahead -

India is the topmost offshoring destination for IT companies across the world. Having proven its capabilities in delivering both on-shore and off-shore services to global clients, emerging technologies now offer an entire new gamut of opportunities for top IT firms in India. The Indian IT & business services industry is expected to grow to US\$ 19.93 billion by 2025. Spending on information technology in India is expected to reach US\$ 144 billion in 2023. By 2026, widespread cloud utilisation can provide employment opportunities to 14 million people and add US\$ 380 billion to India's GDP. As per a survey by Amazon Web Services (2021), India is expected to have nine times more digitally skilled workers by 2025.

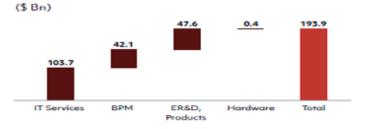

IT Exports -

Indian technology exports are set to reach \$190 billion (excl. hardware exports), a growth of ~9.4% and an addition of ~\$17 billion over FY2022. ER&D at 11.1%, Software Products at 9.1%, BPM at 9.0% and IT services at 8.9% are driving growth.

Export of IT services has been the major contributor, accounting for more than 53% of total IT exports (including hardware). BPM and engineering and R&D (ER&D) and software products exports accounted for 22% and 25%, respectively of total IT exports during FY23. Exports from the Indian IT industry stood at US\$ 178 billion in FY22. Export of IT services was the major contributor, accounting for more than 51% of total IT export (including hardware). BPM and engineering and R&D (ER&D) and software products export accounted for 20.78% each to total IT exports during FY21. The ER&D market was expected to grow to US\$ 42 billion by 2022.

FY2023E: Exports closing in on \$200 Bn

Recommendation -

Paramatrix Technologies Limited has been in the industry since 2004 and has a vast experience in the industry. The management overview of the company is satisfactory.

The P/E on a post-IPO basis is around 30.64 times which makes it fairly priced by looking at the performance of the company and sector. The Sector P/E is 38.80 times.

The company has seen inconsistency in the top line of their financials over the years. Also, the bottom line and profitability margins have seen inconsistent over the years and there was sudden dip in FY 2024. The increase in FY 2023 was mainly on account of increase in revenue from operations coupled with lower depreciation charge and finance charges and the sudden dip in FY 2024 was due to decrease in revenue from their services and onetime other income recorded.

The company's peers mentioned, All E Technologies Limited, Softsol India Limited and Ksolves India Limited are not comparable on an apple-to-apple basis as the market cap for these three companies are large compared to Paramatrix Technologies Limited.

The IT industry is highly fragmented and there are many big and established players. Also, the company doesn't offer any unique service or has any unique business strategy that differentiates it from other companies.

Thus, investors can **AVOID** this IPO.
