INDUSTRY OVERVIEW -

Indian IFM Market Analysis -

IFM market in India has been growing steadily over the last decade and is set to witness significant growth momentum over the next 5 years. According to industry reports, the market was valued at around INR 90 Thousand Crores in 2023 and is expected to reach 190 Thousand Crores by 2029, growing at a compound annual growth rate (CAGR) of approximately 36.12%. In India out of the Facility Market 39% of the business are in Outsourced model to Third party facility Management Companies.

The facility management market in India has been growing significantly in recent years. Facility management refers to the professional management of facilities such as manufacturing Hubs, office buildings, shopping malls, hospitals, hotels, airports, and educational institutions to ensure their efficient operation and maintenance. In India 39% of the business are in Outsourced model to Third party facility Management Companies in 2023 which will increase as there is increase in the Demand for IFM Services to 50% by 2029.

Employee Transportation Industry -

The Corporate Employee transportation market size has grown strongly in recent years, It will grow from USD 27.8 Billion in 2020 to USD 42.19 Billion in 2026 and estimated to grow at CAGR of 5.44%.

India - The market for corporate employee mobility services is fragmented, including unorganized players. Organized player utilizes the technological assistance for fleet and employee commute management which broaden the scope of their offerings.

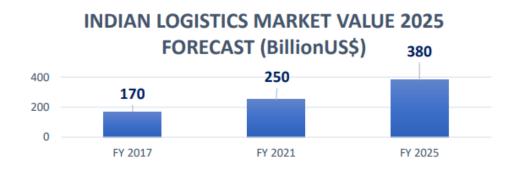

The COVID-19 pandemic hampered the market by forcing many companies to work from home, resulting in less employee transportation. However, as economies have recovered from the lockdown, a return to office is expected to provide transportation service operators with numerous opportunities in the coming years. Moreover, governments in various states are also initiatives to improve employee commute systems.

Supply Chain Management -

Globally, the warehouse count stood at 1,50,000 warehouses at the end of 2020, roughly 25 Billion square feet of space. By the end of 2025, there will be nearly 1,80,000 warehouses around the world, with China, the US, Japan, India and Germany accounting for more than half of global warehouse building stock.

As per Cargo Connect (Feb 2024) Global Third- Party Logistics (3PL) Market expected to grow at the rate of 9.5% in 2024 to 2027 and expected to reach the market Size of \$ 1,579.84 Billion by 2027.

Statistics suggest that the Indian logistics and supply chain market gives employment to more than 22 million people. The warehousing, industrial, and logistics (WIL) sectors are projected to be crucial for attaining India's vision of being a US\$ 5 trillion economy by FY25. The warehouse and logistics industry has benefited the most from the COVID-19 epidemic, increasing its share from 2% in 2020 to 20% in 2021. Because of the growing shift from discretionary to essential internet buying during the COVID-19 epidemic, the e-commerce industry became more appealing and attractive.
